What is Photoshop? Photoshop is an image-editing application that enables users to manipulate digital raster images. As its name suggests, it was designed to work with photographs. It has evolved into a powerful tool with many features, including the ability to create, move, and alter images with multiple layers of transparency. Though Photoshop has become a verb, few people use it "unabashedly." It's a tool to which many people have been exposed through user training classes, magazines, and web pages. The program can be run on any platform that can run Photoshop. Since Windows has been widely adopted for home computing and the Macintosh has a large base among graphic designers and professionals, Photoshop's popularity has soared for both platforms. Many companies also offer training programs to teach Photoshop or offer affordable or free classes for beginners. A subscription to Photoshop's Extended Suite enables users to take full advantage of the program. Adobe Photoshop CS6 Adobe Photoshop CS6 was released in 2013. In addition to supporting more layers and features, it includes tools to create and modify vector graphics, Web graphics and HTML pages. The combination of improvements in Photoshop and the iPad enables users to create images at a tablet using sketching tools. This can open the door for creative results in portrait, landscape, and abstract paintings, as well as illustration, cartoon, and comic books. Adobe is releasing four versions of Photoshop to meet different markets. These are: Adobe Photoshop CS6 Standard Adobe Photoshop CS6 Extended Adobe Photoshop CS6 Creative Cloud Adobe Photoshop CS6 Student Adobe Photoshop CS6 Extended Although the free version of Photoshop is still supported on Windows, Photoshop CS6 is priced at \$1,299 (79.95 euros) and Professional \$2,299 (149.95 euros). Adobe does offer a student version and a Creative Cloud (CC) subscription, both of which are currently available. The pre-release version (V.15.0) of Photoshop CC is available now, as is the CS6 trial version which is still available for purchase. On Aug. 1, 2015, the company will release Photoshop CC and Creative Cloud to the public. However, Photoshop CC will require a paid membership to get all the features. The Creative Cloud, which costs \$50/mo for a single user or \$100/mo for a family, offers advanced features such as one

Q: How to include a TextView within a Spinner I'm trying to get a basic layout with a spinner, and a text view. But the textview is not "located" inside the spinner. If you move the spinner to the side, the textview does not show in the same position. So where I want the textview to be is at the bottom of the spinner A: If I understand you correctly you need an action bar (the button at the top). This will contain a spinner and a text view for the title. The action bar will usually be in the top corner so set the top margin of the RelativeLayout to -72dip. A: There should be a constructor for the spinner in android so you can assign things to what you want. The default value for the spinner is empty so you can create a spinner like this

What's New in the?

Alabama's Alabama and Auburn fans may still be digesting the news from the SEC Championship game a few days ago. But in the realm of politics, some fans are already celebrating. Former Auburn University, WRMA radio commentator, and Alabama basketball fan Chris Fowler saw an opportunity to change the opinion of former high school rival and current Auburn University president Jay Gogue. Fowler was presenting a segment on ESPN's SportsCenter after Auburn beat Georgia in the SEC Championship. As it turns out, Fowler had gotten the scoop on a paper Gogue was penning. The good news for Fowler was that he knew what the paper was about. The bad news was he was presenting the paper to the public. Gogue was a guest on the Fowler show and upon presentation of the paper, he read that it was about his priorities as Auburn University president. Gogue said, "And I just have to be honest. Our priorities are football and Auburn basketball. Everything else is pretty much a long shot." As he typically does in a new sports segment, Fowler then moved on. The conservative radio personality jumped into the comment section of the SportsCenter app and went after Gogue, leaving Gogue a bit surprised. Fowler said, "Oh, so you wanted me to come on your show and ask you what you're gonna do when you're no longer Auburn's president? I'm gonna tell you what I'm gonna do. When I'm no longer on your show, I'm gonna go kill myself." Check out the exchange in the clip below: Unfortunately, the exchange was quickly cut off from the ESPN app. From SportsCenter's description of the two-hour show, they note that "The Fowler Show airs every Monday-Friday during the college football season from 6-10 am ET on ESPN Radio's flagship station in New York." This story is developing.
